Economic and Fiscal Impact Overview

Like other states, Missouri uses tax incentive programs created by the legislature to spur job creation and economic growth. Through economic modeling, we're able to estimate and compare future state revenues to the costs of providing a tax benefit over time. This is called economic and fiscal impact analysis.

Models project how spending ripples through the economy, based on past spending patterns. They provide an estimate of the potential spin-off spending and jobs that could occur from changes in economic activity. This makes them well suited to projects and programs where the goal is economic development through job creation or capital investment. These models do not capture impacts that are hard to monetize, such as quality of life improvements or the catalytic effect of a project on the local economy. For tax incentives aiming for less quantifiable impacts, modeling can still be informative, but should be considered alongside other performance criteria.

Missouri Economic Impact Analysis Process

For many programs, statute requires economic and fiscal impact analysis for individual projects and the program as a whole. Every year the Department's model is updated with data from the U.S. Bureau of Economic Analysis, Bureau of Labor Statistics, Census Bureau and Missouri's Office of Administration.

The economic model currently used by DED is the Regional Economic Models, Inc. (REMI) Policy Insight model. Unlike other models, REMI allows the state to estimate impacts over a longer period, as opposed to a single year. This is important, given the multi-year structure of Missouri's tax incentive programs. The model also accounts for local competition, recognizing that a new business might take spending away from an existing business.

The Department has performed economic analyses for over fifteen years and currently performs approximately 200 analyses each year. Missouri's quality and use of tax incentive evaluation has been noted in several publications. These include a 2012 Pew Center study, Evidence Counts: Evaluating State Tax Incentives for Jobs and Growth, a 2013 Pew Center and MacArthur Foundation Report, States' Use of Cost-Benefit Analysis, and a 2013 Incentive Transparency Index developed by Investment Consulting Associates.

Economic Impact Example

For the annual program evaluations listed in the following forms, the analysis covers the combined direct impacts of projects approved throughout the year. However, to illustrate the results of economic and fiscal impact analysis, the following scenario provides a simplified example of a single project. Fiscal impacts are for a 10-year period and dollar figures are in 2022 dollars.

Project Assumptions:

A new machinery manufacturing company locates in Missouri, leading to one year of plant construction and equipment purchases totaling \$12.5 million. The company then hires 100 full-time workers at average wages. The state offers \$2.0 million in tax incentives spread over six years. Over a ten year period the fiscal benefit-cost ratio is 2.27 indicating that for every \$1 dollar of tax incentive the state is expected to receive \$2.27 in net new general revenue from increased economic activity.

Category	Description	10 Yr. Total
BENEFIT	Projected net state general revenue (gross revenue minus gross expenditures)	\$4,330,244
COST	Tax incentive spread over six years	\$1,903,633
Fiscal Benefit-Cost (B/C) Ratio:		2.27

The Affordable Housing Assistance Program (AHAP) increases the availability of rental housing and for sale housing that is affordable to low-income families. Other benefits include the removal of blight in communities and increased local tax revenues such as property taxes. The AHAP credit increases the capacity of non-profit housing organizations to build or renovate affordable housing for low-income families. The AHAP credit increases the amount of disposable income for low-income families by providing housing that is affordable to them. This improves the overall quality of their lives by providing additional income for other basic necessities such as food, clothing, healthcare and education. Lastly, the operating AHAP credit helps organizations attract donations to support operating funds, without which the agencies may not be able to administer their affordable housing programs.			
In FY-2022, every dollar of auth. program tax credits returns		Over 12 YEARS, every dollar of auth. program tax credits returns	
\$5.72 in new personal income totaling \$4.15 million		\$1.49 in new personal income totaling \$6.79 million

\$12.75 in new economic output totaling \$9.25 million		\$2.52 in new economic output totaling \$11.51 million	

Comments on Performance Measure:
The number of housing units produced is based on what is reported to MHDC by the non-profit sponsor of the development. Projects awarded AHAP credits may be awarded additional credits in succeeding years; however, these projects receiving AHAP credits are not counted as "new units". In this circumstance, MHDC places a new Land Use Restrictive Agreement (LURA) on the units, extending the affordability period.

LOW INCOME HOUSING TAX CREDIT PROGRAM

PURPOSE

An incentive for the new construction or rehabilitation of rental housing affordable to low and moderate income families in Missouri.

AUTHORIZATION

Sections 135.350 to 135.363, RSMo

HOW THE PROGRAM WORKS

This program leverages equity investments from the private sector for the development of rental housing, thereby reducing rents to affordable levels for low and moderate income families. It provides a state tax credit for ten years to qualified owners of affordable rental housing developments equal to approximately 9% of the eligible development costs. The state low-income housing tax credit may be allocated to a qualified development in an amount up to 100% of the federal tax credit allocated to the development. The total amount of federal 9% credits available is capped annually at an amount set by the IRS, based on the population of the state.

Developments financed with tax-exempt bonds are eligible to apply for state tax credits equal to approximately 4% of the eligible development costs. There is a \$6 million statutory annual cap on new authorizations of state 4% credits.

ELIGIBLE AREAS

Statewide.

ELIGIBLE APPLICANTS

Developers (private and not-for-profit) are eligible to apply for the tax credit.

ELIGIBLE USE OF TAX CREDITS

This tax credit can be applied to:

- ❖ Ch. 143 – Income Tax
- ❖ Ch. 147 – Corporation Franchise Tax
- ❖ Ch. 148 – Bank Tax, Insurance Premium Tax, Other Financial Institutions Tax
- ❖ Ch. 153 – Express Company Tax

This credit's special attributes:

- ❖ 10-year credit
- ❖ Carryback 3 years
- ❖ Carryforward 5 years
- ❖ Sellable or transferable within an ownership structure

APPLICATION PROCEDURE

Each year MHDC publishes a notice of funding availability announcing the amount of credits available and the deadline for both 9% and 4% applications, which is typically in the fall. The process to determine the allocation of tax credits is competitive. MHDC staff reviews all proposals to determine the financial feasibility and the demand for affordable rental housing in the community. Staff typically makes its recommendations to the Commission from the fall application round in the winter. Depending on the availability of credits, a second round may be held for 4% applications in the spring, following the same competitive evaluation process. Staff also may accept 4% applications that request only 4% Federal LIHTC from MHDC on a rolling basis throughout the year as defined in the Notification of Funding Available.

SPECIAL PROGRAM REQUIREMENTS

An eligible proposal must:

- ❖ Develop rental housing that (i) rents at least 20% of its units to families earning 50% of the area median gross income (AMGI), (ii) rents at least 40% of its units to families earning 60% of the AMGI; or (iii) at least 40% of units in a project be rent restricted and have household income limits that average at or below 60% AMGI.
- ❖ Maintain the affordability of the rental units by restricting rents for an extended period of time, typically 30 years;
- ❖ Assist in the production of financially viable, market appropriate housing in areas of greatest housing need in the State;
- ❖ Be sponsored by an entity with prior successful housing experience and the ability to proceed in an expeditious manner.

An approved proposal must meet program standards including ongoing compliance reviews concerning:

- ❖ Resident household eligibility;
- ❖ Rent restrictions;
- ❖ Occupancy standards;
- ❖ Physical property condition.

Other Benefits:
The MOLIHTC program delivers rental housing that is affordable to low-income families, veterans, special needs tenants, and seniors. It reduces blight and improves communities through new construction and rehabilitation of affordable rental housing in Missouri. The reduced rents brought about by the MOLIHTC program increases households' disposable income and allows low-income families, veterans, special needs tenants, and seniors to meet more of their other basic necessities such as food, clothing, education and health care. The subsidy provided by the MOLIHTC program makes it economically feasible to develop new or rehabilitated affordable rental housing in many very low-income rural communities in Missouri. Finally, the equity raised from the MOLIHTC helps preserve affordable rental housing that is in danger of being lost from existing stock.

PERFORMANCE MEASURE(S)

Comments on Performance Measure:
This performance measure reflects the total number of LIHTC housing units placed in service, or credits issued each year. Total number of units placed in service, or credits issued, each year varies - dependent on the applications received for consideration, the actual number of projects approved, and the type of projects approved (preservation or new construction). Authorized developments typically take 24 months to complete construction and submit cost certification documentation to MHDC; after which they are issued LIHTCs. No LIHTCs are issued by MHDC or eligible to be redeemed by a development owner until a development is completed to MHDC requirements and ready for leasing.

- DED and the MDFB must determine that the program is a material factor in the company's decision to initiate the project, and this is certified by the business.

- **Requirements:** New full-time (35+ hours per week) jobs in a new or expanding business (not including identical jobs filled by recalled workers, replacement jobs or jobs which previously existed in the business) are considered to be "new jobs". The business or a related taxpayer cannot have employed them during the preceding twelve months. The wages for such employees must be above the average wage for the area.
- **"Clawbacks":** If the business does not fulfill the commitments made regarding the number of new jobs or capital investment, the tax credits will be reduced proportionately. If the business does not meet the minimum capital investment or minimum number of new jobs by the end of the 3-year build out phase or an event of default occurs under the governing agreements occurs, including with respect to the number of new jobs retained or amount of capital investment, MDFB may seek a penalty, among other remedies, equal to the amount of the tax credits received prior to that time.

Applicable Taxes: N/A; This is an appropriation of funds, not a credit.

Date of Origin: 1988

Program Description and Eligibility Requirements:

The program provides assistance to eligible companies to train workers in newly created jobs. This program is suited for large attraction and expansion projects creating a substantial number of new jobs. Funds are generated by deferring a portion of the state employer withholding tax - approximately 2% - on the newly created jobs. Eligible companies include manufacturing, research and development, and companies engaged in interstate commerce. This program is administered locally through the community colleges.

Explanation of How Award is Computed:

Entitlement ☐ No ☐ Discretionary ☐ Yes ☐

A formula using the number of jobs to be created and the average annual salary of the workers in the new jobs calculates the amount that can be generated over a period of several years through the diversion of a portion of the employer withholding tax (approximately 2%). Discretionary measures such as review of types of industry and wage rates paid are considered before approving a project.

Annual Appropriation \$11,000,000 (remainder of annual appropriation) \$10,633,801 Total Active Projects \$28,410,002 (remainder of outstanding Active Projects) \$8,359,136

Explanation of cap:

There is a statewide annual budget appropriation of \$11 million on the amount of outstanding debt there can be at any given time in the fiscal year. This figure changes monthly as debt is retired on existing projects and new projects are issued.

Explanation of Expiration of Authority: Program sunsets July 1, 2030.

BROWNFIELD REDEVELOPMENT PROGRAM

Provides financial incentives for the redevelopment of commercial/industrial sites that are contaminated with hazardous substances and have been abandoned or underutilized for at least three years.

AUTHORIZATION

Sections 447.700 to 447.718, RSMo

ELIGIBLE AREAS

Statewide.

ELIGIBLE APPLICANTS

Any Missouri taxpayer is eligible to participate in the program.

ELIGIBILITY CRITERIA

- The applicant cannot be a party who intentionally or negligently caused the release or potential release of hazardous substances at the project.
- If the property is not owned by a public entity, the city or county must endorse the project.
- The project must be accepted into the "Voluntary Cleanup Program" of the Missouri Department of Natural Resources (DNR).
- The project must be projected by the Missouri Department of Economic Development (DED) to result in the creation of at least ten new jobs or the retention of 25 jobs by a private commercial operation.

PROGRAM BENEFITS/ELIGIBLE USES

- Remediation Tax Credits

DED may issue tax credits for up to 100% of the cost of remediating the project property. DED will issue 75% of the credits upon adequate proof of payment of the costs; the remaining 25% will not be issued until a clean letter has been issued by DNR. The tax credit may also include up to 100 percent of the costs of demolition that are not directly part of the remediation activities, provided that the demolition is on the property where the voluntary remediation activities are occurring, the demolition is necessary to accomplish the planned use of the facility where the remediation activities are occurring, and the demolition is part of a redevelopment plan approved by the municipal or county government and the department of economic development. The demolition may occur on an adjacent property if the project is located in a municipality which has a population less than twenty thousand and the above conditions are otherwise met. The adjacent property shall independently qualify as abandoned or underutilized. The amount of the credit available for demolition not associated with remediation cannot exceed the total amount of credits approved for remediation including demolition required for remediation.

Notwithstanding any provision of law to the contrary, in any county of the first classification that has a charter form of government and that has a population of over nine hundred thousand inhabitants, all demolition costs incurred during the redevelopment of any former automobile manufacturing plant shall be allowable costs

eligible for tax credits under sections 447.700 to 447.718 so long as the redevelopment of such former automobile manufacturing plant shall be projected to create at least two hundred fifty new jobs or at least three hundred retained jobs, or a combination thereof, as determined by the department of economic development. The amount of allowable costs eligible for tax credits shall be limited to the least amount necessary to cause the project to occur, as determined by the director of the department of economic development, provided that no tax credit shall be issued under this subsection until July 1, 2017. For purposes of this subsection, "former automobile manufacturing plant" means a redevelopment area that qualifies as an eligible project under section 447.700, that consists of at least one hundred acres, and that was used primarily for the manufacture of automobiles but, after 2007, ceased such manufacturing.

The tax credits can be applied to:

- Ch. 143 – Income tax, excluding withholding tax
- Ch. 147 – Corporate franchise tax
- Ch. 148 –
 - Bank Tax
 - Insurance Premium Tax
 - Other Financial Institution Tax

The remediation tax credit's special attributes:

- Carry forward 20 years
- Sellable or transferable

FUNDING LIMITS

The total state costs of the project tax credits must be less than the projected state economic impact of the project, as determined by DED.

The amount of remediation tax credits issued must be the least amount necessary to cause the project to occur.

APPLICATION/APPROVAL PROCEDURE

An applicant must submit an application to DED for determination of eligibility and request for remediation tax credits.

An application must also be submitted to the Department of Natural Resources (DNR) for participation in the "Voluntary Cleanup Program." Acceptance into this program is a requirement of the Brownfield Redevelopment Program.

Remediation that is performed prior to receipt of a written authorization for remediation tax credits from DED will not be eligible for tax credits and may jeopardize the project's overall eligibility for the program.

Applications may be submitted year-round. Each application is reviewed on a case-by-case basis.

REPORTING REQUIREMENTS

The "Tax Credit Accountability Act" reporting form must be submitted to DED by June 30 each year for three years following the year of the first issuance of tax credits.

SPECIAL PROGRAM REQUIREMENTS

Credits are subject to 2.5% issuance fee.

Comments on Performance Measure: Benefits are based on the number of new jobs above the base. For the purposes of reporting, the number that is indicated here is net new year to year, so that there is no double counting of new jobs. For the projects for which credits were issued, the jobs were not net new for this fiscal year but did have new jobs over the base. The job numbers that were created in FY2020 will be reflected in FY2021 due to the timing of authorization and issuance of credits.

Comments on Performance Measure: Benefits are based on the amount of investment above the base. For purposes of reporting, the amount that is indicated here is net new year to year, so that there is no double counting of new investment. The investment that was created in FY2020 will be reflected in FY2021 due to the timing of authorization and issuance of credits.

ENHANCED ENTERPRISE ZONE TAX BENEFIT PROGRAM

PURPOSE

Provide tax credits to new or expanding businesses in a Missouri Enhanced Enterprise Zone.

AUTHORIZATION

Sections 135.950 to 135.973, RSMo

ELIGIBLE AREAS

Enhanced Enterprise Zones are specified geographic areas designated by local governments and certified by the Department of Economic Development (DED). Zone designation is based on certain demographic criteria, the potential to create sustainable jobs in a targeted industry and a demonstrated impact on local industry cluster development. The Zone designation demographic criteria currently utilizes population and income data from the 2000 Census, U.S. Census Bureau. Unemployment information is updated annually using data from the U.S. Bureau of Labor Statistics.

ELIGIBLE APPLICANTS

An eligible business must be located in a Missouri Enhanced Enterprise Zone (EEZ). Individual business eligibility will be determined by the zone, based on creation of sustainable jobs in a targeted industry or demonstrated impact on local industry cluster development. Service industries can be eligible if a majority of their annual revenues will be derived from services provided out of the state. Headquarters or administrative offices of an otherwise excluded business may qualify if the offices serve a multi-state territory. See application for complete information.

Ineligible Applicants:

Gambling establishments (NAICS group 7132),
Retail trade (NAICS sectors 44 & 45),
Educational services (NAICS sector 61),
Religious organizations (NAICS group 8131),
Public administrations (NAICS sector 92) and
Food and drinking places (NAICS subsector 722) are prohibited by statute from receiving the state tax credits.

ELIGIBILITY CRITERIA

The Enhanced Enterprise Zone program is a discretionary program offering state tax credits, accompanied by local real property tax abatement, to Enhanced Business Enterprises.

Tax credits may be provided each year for five tax years after the project commences operations.

To receive tax credits for any of the years, the facility must create and maintain the minimum:

- New or expanded business facility – 2 new employees and \$100,000 new investment;

- Replacement business facility – 2 new employees and \$1,000,000 new investment
- Company must offer health insurance at all times, of which at least 50% is paid by the employer, to all full time employees in Missouri.

Eligible investment expenditures include the original cost of machinery, equipment, furniture, fixtures, land and building, and/or eight times the annual rental rate paid for the same. Inventory is not eligible.

PROGRAM BENEFITS/ELIGIBLE USES

This tax credit can be applied to Ch. 143 – Income tax, excluding withholding tax.

Tax credits can only be applied to tax liability for the year in which they were earned. The tax credits are refundable or may be transferred, sold or assigned. The sale price cannot be less than 75% of the par value of such tax credits.

FUNDING LIMITS

Tax credits will be an amount authorized by DED, based on the state economic benefit, supported by the number of new jobs, wages and new capital investment that the project will create. Tax credits issued under this program are limited to \$24,000,000 annually, effective August 28, 2008.

APPLICATION/APPROVAL PROCEDURE

DED must first offer program benefits to the business in the form of a formal proposal. The company must return the accepted proposal within 90 days of the proposal date.

The company must submit the Notice of Intent (NOI), (Application & guidelines, pages 7-9), and be notified of approval before any new construction, and/or purchase of machinery and equipment can be eligible as new investment. NOIs will be accepted by DED at any time of the year and will be approved on an individual, case-by-case basis, based on compliance with all program criteria.

REPORTING REQUIREMENTS

Annual Application for Tax Credits –

The facility must file the Annual Application for Tax Credits and supporting documents each year for calculation of the facility's state tax benefits. See page 10 of the application for a list of requirements. The deadline for submitting the Annual Application for Tax Credits is during the tax period immediately after the tax period for which the credits are being requested.

SB 1099 Reporting –

The "Tax Credit Accountability Act" reporting form must be returned for this program to DOR by June 30 of each

year. Contact (573) 526-8733 (Personal Tax) or (573) 751-4541 (Corporate Tax) with any questions.

SPECIAL PROGRAM REQUIREMENTS

Applicants must be eligible for and receive at least ten years' local property tax abatement at 50% pursuant to the local enhanced enterprise zone plan.

Projects relocating employees from one Missouri location to another Missouri location must obtain the endorsement of the governing body of the community from which the jobs are being relocated and include this endorsement with the Notice of Intent.

A business cannot earn tax credits under this program if earning Enterprise Zone, Business Facility, Quality Jobs, Rebuilding Communities or Brownfield Jobs and Investment tax credits for the same project for the same tax period.

- (a) Manufacture goods at a facility in Missouri throughout the period in which the company receives benefits under the Act; and
- (b) Makes a capital investment of at least \$75,000 per retained job at the facility for the manufacture of a new product within two years of beginning to retain withholding taxes; or
- (c) Commits to make a capital investment of at least \$50,000 per retained job at the facility for the modification or expansion of the manufacture of an existing product within two years of beginning to retain withholding taxes.

Qualified suppliers that:

- (a) Attest to the Department of Economic Development (DED) that it derives more than 10% of its total annual sales revenue from sales to a qualified manufacturing company;
- (b) Adds five or more new jobs;
- (c) Pays wages for the new jobs that are equal to or exceeds the lower of the county average wage for Missouri as determined by the department using the NAICS industry classifications but are not less than 60% of the statewide average wage; and
- (d) Provides health insurance for all full-time jobs and pays at least 50% of the insurance premiums.

PROGRAM BENEFITS/ELIGIBLE USES

Allows a qualified manufacturing company, beginning January 1, 2012, upon approval of a notice of intent by the department, to retain 100% of the withholding taxes from full-time jobs at the facility for 10 years if it manufactures a new product, or to retain 50% of withholding taxes from full-time jobs for seven years if it modifies or expands the manufacture of an existing product.

Allows a qualified supplier, upon approval of a notice of intent by the department, to retain 100% of the withholding taxes

from new jobs for three years. If the qualified supplier pays wages for the new jobs that are equal to or greater than 120% of the county average wage for Missouri as determined by the department using NAICS industry classifications, it can retain the withholding taxes for five years.

FUNDING LIMITS

Limits the amount of retained withholding taxes authorized under the Act for any one qualified manufacturing company to \$10 million per year and limits the aggregate amount of retained withholding taxes authorized under the Act to \$15 million per year.

Specifies that if a qualified manufacturing company is utilizing withholding taxes from jobs at the facility for any other state program, the taxes will first be credited to the other state program before beginning to accrue under the provisions of the Act. The other state programs include, but are not limited to:

- (a) New Jobs Training Program (Sections 178.892 - 178.896);
- (b) Job Retention Program (Sections 178.760 - 178.764);
- (c) Real Property Tax Increment Allocation Redevelopment Act (Sections 99.800 - 99.865); or
- (d) Missouri Downtown and Rural Economic Stimulus Act (Sections 99.915 - 99.980).

REPORTING REQUIREMENTS

On an annual basis, the business must submit a report documenting the retained jobs or new jobs created, the total payroll, and confirming that the business meets the health insurance requirements for the new jobs. In the event that a company has not maintained the minimum program requirements, benefits will cease for the remainder of the benefit period.

SPECIAL PROGRAM REQUIREMENTS

Allows a qualified manufacturing company to remain eligible to participate in the Missouri Quality Jobs Program for any new jobs for which it does not retain withholding taxes, if it meets the qualifications for that program but prohibits a qualified manufacturing company from simultaneously receiving benefits from:

- (a) Business use incentives for large-scale developments (Sections 100.700 - 100.850, RSMo);
- (b) New or expanded business facilities (Sections 135.100 - 135.150);
- (c) Enterprise zones (Sections 135.200 - 135.286);
- (d) Relocation of a business to a distressed community (Section 135.535); or
- (e) Rural empowerment zones (Sections 135.900 - 135.906).

- (a) Business use incentives for large-scale developments (Sections 100.700 - 100.850);
- (b) New or expanded business facilities (Sections 135.100 - 135.150);
- (c) Enterprise zones (Sections 135.200 - 135.286);
- (d) Relocation of a business to a distressed community (Section 135.535);
- (e) Rural empowerment zones (Sections 135.900 - 135.906);
- (f) Enhanced enterprise zones (Sections 135.950 - 135.970); or
- (g) Missouri Quality Jobs Program (Section 620.1881).

Requires a qualified manufacturing company that fails to make the required capital investment within two years to immediately cease retaining any withholding taxes with respect to jobs at the facility, repay all withholding tax previously retained plus interest of 5% per year, and forfeit all rights to retain withholding taxes for the remainder of the withholding period. If the failure to make the capital investment is due to economic conditions beyond the company's control, the department director may suspend the right to retain withholding taxes one time for up to three years at the company's request.

Authorization

Sections 620.2000 to 620.2020

Eligible Applicants

- For-profit or nonprofit businesses
- Not eligible:
 - Gambling establishments, food and drinking places, public utilities, educational services, religious organizations, public administration, ethanol distillation or production, biodiesel production, healthcare and social services, or store front consumer-based retail trade establishments not located in a third- or fourth-class county.
 - Businesses that are delinquent in payment of any nonprotested taxes or other payments (state, federal, local).
 - Businesses that have filed for or have publicly announced their intention to file for bankruptcy, unless certain requirements are met.
 - Businesses that are relocating jobs from Johnson, Miami, or Wyandotte counties in Kansas to Jackson, Platte, Clay or Cass Counties in Missouri. However, net new jobs created above a qualified company's base employment may be eligible for benefits.
- Note: Headquarters, administrative, or research and development offices of otherwise excluded businesses may be eligible if the predominant function of such offices is to serve a multistate territory.

Application/Approval Procedure

Prior to the receipt of a DED proposal or approval of a notice of intent (NOI), none of the following can have occurred:

- Significant, project-specific site work at the project facility
- Purchased machinery or equipment related to the project
- A publicly announced intention to make new capital investment at the project facility

A qualified company may request a proposal for estimated benefits or apply directly with an NOI to DED. DED will then confirm the business is eligible; establish the date at which "base employment" is calculated; reserve the estimated tax credits for the project (if any); and establish the two-year deadline date by which the minimum thresholds for the creation of the new jobs, investment, etc. must be met.

Program Benefits

Program benefits include (a) the retention of the state withholding tax of the new jobs and/or (b) state tax credits, which are refundable, transferable and saleable. The program benefits are based on a percentage of the payroll of the new jobs. The program benefits are not provided until the minimum new job threshold is met and the company meets the average wage and health insurance requirements. For definitions of "full-time employee," "new jobs," and "project facility base employment," please see the Missouri Works Program Guidelines.

Eligibility Criteria

Program	Minimum New Jobs	Minimum New Private Capital Investment	Minimum Average Wage	Automatic Benefit
Zone Works ¹	2	\$100,000	80% of County Avg. Wage	WH, 5 or 6 years ³
Rural Works ²	2	\$100,000	90% of County Avg. Wage	WH, 5 or 6 years ³
Statewide Works	10	N/A	90% of County Avg. Wage	WH, 5 or 6 years ³
Mega Works 120	100	N/A	120% of County Avg. Wage	6% of new payroll, 5 or 6 years ³
Mega Works 140	100	N/A	140% of County Avg. Wage	7% of new payroll, 5 or 6 years ³
Qualified Military Projects	10	Real or personal property amount as outlined in the proposal	90% of County Avg. Wage	Tax credits equal to the estimated WH taxes for a term up to 15 years. Must receive a proposal for benefits

"WH" means the retention of the state withholding tax of the new jobs.

1. Project facility must be located in an Enhanced Enterprise Zone
2. Project Facility must be located in a "rural" county, which would NOT include Boone, Buchanan, Clay, Greene, Jackson, Platte, St. Charles, and St. Louis City and County.
3. Benefit period is 5 years, or 6 years for existing Missouri Companies (those that have been operational in Missouri for at least 10 years).

In addition to the Benefit indicated above, the Statewide Works or Mega Works projects may be considered for discretionary benefits. The criteria for the discretionary benefits include:

- The least amount necessary to obtain the company's commitment;
- The amount of the project's projected net fiscal benefit to the state and the period in which the state would realize such net fiscal benefit;
- The overall size (number of jobs, payroll, new capital investment) and quality (average wages, growth potential of the company, multiplier effect of the industry) of the project;
- The financial stability and creditworthiness of the company;
- The level of economic distress of the project area;
- The competitiveness of alternative locations; and
- The percentage of local incentives committed to the project.

Funding Limits—Program Caps

- \$116 million in tax credits
- Note: Up to 21.5% of tax credit cap may be set aside for the Deal Closing Fund.
- \$10 million in tax credits for infrastructure projects
- \$75 million in withholdings for companies with a base employment of 50 or more.

Attributes of the Tax Credits

The tax credits may be applied to Chapter 143 (state income tax, excluding withholding tax) and Chapter 148 (financial institution tax) liabilities. Tax credits must be claimed within one year of the close of the taxable year for which they were issued. Tax credits can only be applied to tax liability for the year in which they were earned. Any annual unused balance is fully refundable. The credits may also be transferred, sold or assigned.

Reporting Requirements

On an annual basis, the business must submit a report documenting the new jobs created, the total payroll, and that the business meets the health insurance requirements for the new jobs. In the event that a company has not maintained the minimum program requirements, benefits will cease for the remainder of the benefit period and may require repayment. The Tax Credit Accountability Act Reporting Form must also be submitted to the Department of Revenue by June 30 each year the company receives tax credits and for three years following the issuance of the tax credits.

Special Program Requirements

Special conditions apply when Missouri Works is used at the same time as other programs that affect state withholding taxes (e.g. Missouri One Start, State Tax Increment Financing).

The wage represents an average for all private industries.

If a project is moving from one Missouri county to a county with a lower county average wage, the company must obtain endorsement from the governing body of the community where the jobs are located, or the higher county average wage will be used for calculations.

Comments on Performance Measure: The estimated number of jobs is the total projected for all projects for which DED issued benefits during FY2019, FY2020, and FY2021. The actual number is the actual number of jobs reported by those projects issued benefits during FY2019, FY2020, and FY2021. Companies have 2 years after authorization to create the statutory threshold number of jobs and ramp up over time. Many of the jobs estimated will be reported as actual in later years. The actual jobs numbers are totals for the projects to date. They are not net new for the year. These numbers do not include retained projects in the Retention category of the program.																					

MISSOURI QUALITY JOBS PROGRAM

Facilitate the creation of quality jobs by targeted business projects.

AUTHORIZATION

Section 620.1875-620.1900, RSMo

ELIGIBLE AREAS

Statewide.

ELIGIBLE APPLICANTS

For-profit and non-profit businesses [except for gambling, retail trade, food and drinking places, public utilities, educational services, ethanol distillation or production facilities, biodiesel production facilities, religious organizations, and public administration companies or businesses that are delinquent in non-protested taxes or other payments (state, federal or local), or any company that has filed for or has publicly announced its intention to file for bankruptcy.] Headquarters or administrative offices of otherwise excluded businesses that serve a multi-state area may qualify in some cases. The average wage of the new jobs must equal or exceed the county average wage (as published by DED), and the company must offer health insurance and pay at least 50% of the premium for all full-time employees in Missouri.

Average Wage: Total annual payroll of the new jobs divided by the average annual number of new jobs.

ELIGIBILITY CRITERIA

The business must create a minimum number of new jobs at the project facility prior to the "deadline" date, based on the type of project:

Small/Expanding businesses:

- Rural areas: 20 or more new jobs within two years of the date of DED's approval.
- Non-rural areas: 40 or more new jobs within two years of the date of DED's approval.

*Non-rural areas include the counties of Boone, Buchanan, Clay, Greene, Jackson, St. Charles, and St. Louis city and county.

Technology businesses (classified by NAICS codes):

- 10 or more new jobs within two years of the date of DED's approval.

High Impact businesses:

- 100 or more new jobs within two years of the date of the hiring of the first new job, and the first new job must be within one year of the date of DED's approval.

PROGRAM BENEFITS/ELIGIBLE USES

For "Small/Expanding" businesses, the benefit of the program is the retention of the state withholding tax of the new jobs.

For "Technology" and "High Impact" businesses, the benefits of the program are (a) the retention of the state withholding tax of the new jobs; and (b) state tax credits, which are refundable, transferable and/or saleable. The program benefits are based on a percentage of the payroll of the new jobs.

The program benefits are not provided until the minimum new job threshold is met and the company meets the average wage and health insurance requirements.

This tax credit can be applied to Chapter 143 (state income tax, excluding withholding tax) and Chapter 148 (financial institutions tax). Tax credits must be claimed within one year of the close of the taxable year that they were issued. Tax credits can only be applied to tax liability for the year in which they were earned. Any unused balance is refundable. The credits may also be transferred, sold or assigned.

The program benefits are calculated as follows:

Small/Expanding businesses: Retain 100% of the withholding tax of the new jobs, each year for the benefit period of:

- Three years - if the average wage of new jobs is 100-119% of county average wage; or
- Five years - if the average wage of new jobs is at least 120% of county average wage.

Technology businesses: 5% of the payroll of the new jobs each year for five years; plus:

- "Average Wage Bonus"

High Impact businesses: 3% of the payroll of the new jobs each year for five years; plus:

- "Average Wage Bonus"
- "Local Incentives Bonus"

"Average Wage Bonus": Company average wage as a percentage of county average wage:

- Greater than 120% and up to 140%: ½% bonus of payroll of the new jobs.
- Greater than 140%: 1% bonus of payroll of the new jobs.

"Local Incentives Bonus": Amount of local incentives provided to the project as a percentage of the amount of new local tax revenues derived from the project, over 10 years:

- 10-24%: 1% bonus of payroll of the new jobs.
- 25-49%: 2% bonus of payroll of the new jobs.
- 50% or more: 3% bonus of payroll of the new jobs.

Each time the business meets the minimum new job threshold, it may start a new benefit period for the net new jobs created. There is no limit on the number of benefit periods a company may use the program, as long as a new Notice of Intent is completed and minimum new job thresholds and other program qualifications are met.

"New jobs" are defined as full-time (average 35 or more hours/week each year) employees of the company that are employed at the project facility, based on the increase from the "base employment" (the number of full-time jobs at the facility, or the average number for the twelve-month period prior to the Notice of Intent, whichever is higher, on the date DED receives

the Notice of Intent). In the event the company (or a related company) reduced jobs at another facility in Missouri with related operations, the new jobs at the project facility would be reduced accordingly.

FUNDING LIMITS

There is no annual cap on the retained withholding taxes. Tax credits issued for the entire program shall not exceed \$80,000,000 per calendar year, and are provided on a first-come basis.

APPLICATION/APPROVAL PROCEDURE

An application ("Notice of Intent") may be submitted to DED at any time of the year by the business. Applications may be obtained at www.missouridevelopment.org. DED's approval will:

- Confirm that the type of project/business is eligible.
- Establish the date "base employment" is calculated.
- Reserve the estimated tax credits for the project.
- Establish the 2-year "deadline" date for the creation of the minimum new jobs to be eligible for the program.

REPORTING REQUIREMENTS

On an annual basis, the business must submit a report documenting the new jobs created, the total payroll, and confirming that the business meets the health insurance requirements for the new jobs. In the event that a company has not maintained the minimum program requirements, benefits will cease for the remainder of the benefit period. A high-impact project may continue as a small/expanding project as long as new jobs and other program requirements are met. SB1099, or the Tax Credit Accountability Act Reporting Form must be submitted to the Department of Economic Development by June 30th each year the company receives tax credits and for the three years following the end of the benefit period.

SPECIAL PROGRAM REQUIREMENTS

A business cannot simultaneously receive benefits for the same capital investment or the same jobs for the following programs:

- Rebuilding Communities
- Development Tax Credit
- Enhanced Enterprise Zone
- Quality Jobs
- Manufacturing Jobs

Special conditions apply when Quality Jobs is used at the same time as other programs that affect state withholding taxes (Missouri Training, State TIF, MODESA).

Estimated state withholding taxes, based on adjusted gross income (AGI):

- AGI of \$15-20,000 1.21%
- AGI of \$20-25,000 1.92%
- AGI of \$25-30,000 2.45%

QUALIFIED RESEARCH EXPENSE TAX CREDIT PROGRAM

The Qualified Research Expense Tax Credit Program (Program) encourages companies to conduct research and development in the state of Missouri through tax credits for qualified research expenses.

Authorization

Section 620.1039, RSMo

Eligible Areas

Statewide

Eligible Applicants

The Program is available to an eligible taxpayer who has increased qualified research expenses in Missouri in a tax year, as compared to the average of such expenses in three immediately preceding tax years.

Individuals, partnerships, or any charitable organization which is exempt from federal income tax and whose Missouri unrelated business taxable income, if any, would be subject to the state income tax imposed under chapter 143, or a corporation as described in section 143.441 or 143.471, or section 148.370, is an eligible applicant.

Program Benefits/Eligible Uses

The Program provides state tax credits for “additional qualified research expenses”, which is the difference between the qualified research expenses incurred in a tax year subtracted by the average of the qualified research expenses incurred in three immediately preceding tax years.

The tax credits are equal to the greater of:

- 15% of additional qualified research expenses
- 20% of additional qualified research expenses related to research conducted in conjunction with a public or private college or university located in Missouri

This tax credit can be applied to:

- Ch. 143 – Income tax, excluding withholding tax
- Ch. 148 –Taxation of Financial Institutions

This credit's special attributes:

- Carry forward 12 years
- Sellable or transferable

Funding Limits

The total tax credits available under this program for any one calendar year is \$10,000,000, with \$5,000,000 reserved for minority business enterprises, women's business enterprises, and small businesses. If on November 1 of each year, there are unused reserved amounts, the unused amount will be transferred to the overall program cap.

The total tax credits available to a single taxpayer under this program for any tax year is \$300,000.

No tax credit can be issued on that portion of the taxpayer's qualified research expenses incurred within Missouri during a tax year to the extent such expenses exceed 200% of the taxpayer's average qualified research expenses incurred during the immediately preceding three tax years.

If there are applications for the Program's tax credits that exceed the amounts available, eligible applicants will be issued credits on a pro-rata basis, with businesses less than five years old being issued full tax credits first.

Application/Approval Procedure

An application must be filed with DED no later than October 31 of each year. DED will issue a tax credit certificate authorizing the applicant to claim the tax credits. No tax credits will be authorized or issued after December 31.

Reporting Requirements

The “Tax Credit Accountability Act” reporting form must be submitted to the Missouri Department of Revenue by June 30 each year for three years following the year of the issuance of tax credits.

Special Program Requirements

Qualified research expenses are defined the same as in federal law, 26 U.S.C. § 41, but must take place in Missouri. Tax credits are available for expenditures including:

- Wages paid or incurred to an employee for

- engaging in, directly supervising, or directly supporting qualified research in Missouri
- Supplies - tangible property other than land, improvements to land, and depreciable property, used in the conduct of qualified research in Missouri
- With some exceptions, amounts paid or incurred to another person for the right to use computers in the conduct of qualified research
- For the above, 100% of in-house research expenses will count, and 65% of the costs for contract research expenses will count as qualified research expenses

AUTHORIZATION

Sections 135.500 to 135.529, RSMo
Regulations: 4 CSR 80-7.010 to 7.040

HOW THE PROGRAM WORKS

Private venture capital firms apply to the department for certification as a CAPCO. CAPCOs are allocated state tax credits to be given to insurance companies that invest in the CAPCO funds. At this point, all credits allowed under the law have been authorized. The credits can only be applied toward premium tax liability.

CAPCOs are required to make equity investments in eligible Missouri businesses according to a timetable set by law.

ELIGIBLE AREAS

Eligible Missouri businesses can be located statewide for all funds except funds created through the "distressed community" allocation. These funds must be invested in businesses located in distressed communities; visit DED's website at ded.mo.gov.

ELIGIBLE CAPCO INVESTMENTS

A CAPCO may invest in a "qualified Missouri business," which must:

- Be independently owned and operated;
- Be headquartered in Missouri;
- Employ less than 200 persons before the investment is made with at least 80% of them employed in Missouri;
- Be a small business concern that meets the requirements of the United States Small Business Administration qualification size standards for its venture capital program as defined in Section 13 CFR 121.801(c) of the Small Business Investment Act of 1958, as amended;
- Be in need of venture capital and unable to obtain conventional financing; and
- Derive its revenue primarily from:
 - Manufacturing, processing or assembling of products;
 - Conducting research and development; or
 - Providing services in interstate commerce, excluding retail, real estate, real estate development, insurance and professional services provided by accountants, lawyers or physicians (service businesses must demonstrate that more than 33% of its revenue would be from outside the state of Missouri).

CAPCO fund investments can be in the form of equity investments, unsecured loans or hybrid investments.

CAPCO funds invested in the business must be used for new capital improvements, research and development and certain working capital expenses. All such funds must be used in Missouri.

The maximum amount a CAPCO may invest in one Missouri business is 15% of the CAPCO's certified capital.

Funding decisions are made by each CAPCO based on its evaluation.

AWARDED CAPCOs

DED does not have the authority to require a CAPCO to fund a project. Small businesses interested in receiving funding through this program may contact each CAPCO directly:

DEVELOPMENT TAX CREDIT PROGRAM

PURPOSE

To facilitate a business project in order to create new jobs. The Development Tax Credit Program (DTC) offers state tax credits to taxpayers making contributions to a not-for-profit corporation (NFP) for projects approved by the Department of Economic Development (DED). The credits are for 50% of the contribution of cash or the value of certain types of property.

AUTHORIZATION

Sections 32.100 to 32.125, RSMo

Regulations: 4 CSR 85-2.015, 2.030 to 2.040

ELIGIBLE AREAS

Statewide, but the project must be located or qualify as a "blighted" or "conservation" area as defined in Tax Increment Financing (§99.805, RSMo), an enterprise zone (Ch. 135.200 et seq., RSMo), an enhanced enterprise zone (Ch. 135.9, RSMo) or an urban redevelopment area (Ch. 353, RSMo).

ELIGIBLE APPLICANTS

Generally, manufacturing, processing or assembly projects that propose wages above the average for the area and provide health benefits are prioritized. Other types of projects may be considered for approval if tax credits remain near the end of the state fiscal year. There must be a positive economic benefit to the state. This calculation includes other state incentives provided for the project, and new public costs necessary to support the project.

PROGRAM BENEFITS/ELIGIBLE USES

This tax credit can be applied to:

- Ch. 143 – Income tax, excluding withholding tax
- Ch. 147 – Corporate franchise tax
- Ch. 148 –
- Bank Tax
- Insurance Premium Tax
- Other Financial Institution Tax
- Ch. 153 – Express Companies Tax

The DTC program may be used for the acquisition of land or buildings through the purchase from cash contributions or donation of real estate. The acquisition of new or used machinery and equipment is also eligible if it is to be placed in an existing building.

This credit's special attributes:

- Carry forward 5 years
- Sellable or transferable

FUNDING LIMITS

The amount of tax credits available for a single project:

- Is limited to the lesser of \$500,000, or \$10,000 per full-time, permanent job created by the business within two years of execution of the lease; and
- Must be the least amount necessary to cause the project to occur.

Credits authorized under this program are limited to \$6,000,000 per fiscal year.

APPLICATION/APPROVAL PROCEDURE

- Applications will be accepted by DED at any time of the year and will be approved on an individual, case-by-case basis, based on compliance with all program criteria, the need for this program to make a project feasible, a positive economic impact on the state and the availability of tax credits.
- The company cannot make a public announcement of the project prior to DED's contingent approval of an application.
- The not-for-profit (NFP) submits application documents to DED. If DED approves the request, a letter will be sent to the sponsor and company.

A DTC Agreement is executed between DED, the company and the not-for-profit. A lease agreement is executed between the company and the NFP. After the contribution is made, DED will issue tax credit certificates to the contributor.

REPORTING REQUIREMENTS

For three years following the year of the first issuance of tax credits, a Tax Credit Accountability Act Reporting form is sent out by the DED. It must be filled out and received back by

June 30 to avoid penalties.

SPECIAL PROGRAM REQUIREMENTS

- The NFP must retain ownership of all properties acquired by the contribution for a minimum of five years. DED may allow a longer lease period depending on the needs of the project.
- The eventual disposition of properties acquired by the contribution will be no less than 75% of the fair market value of the facility, excluding the value of leasehold improvements.
- The amount of the lease payments will be determined by DED based on the following:
 - costs of the non-profit to operate and maintain the subject assets (if any); and

- the amount of tax credits issued. In most cases, the NFP will provide DED the lease payments received in an amount to repay the tax credits plus interest.
- Only not-for-profit organizations authorized to operate in Missouri and headquartered in the geographic area of the proposed project are eligible recipients of DTC approved contributions. The business that will lease property from the NFP cannot have significant representation on the NFP's board.
- Ineligible NFP's include: churches and their denominational headquarters, units of government and any affiliated organization under their direct supervision, partisan organizations and public or tuition-based private schools.

FILM PRODUCTION TAX CREDIT PROGRAM

PURPOSE

State tax credits are issued to a qualified film production company for up to 35% of the amount expended in Missouri for production or production-related activities to facilitate film production in Missouri.

AUTHORIZATION

Sections 135.750, RSMo

ELIGIBLE AREAS

Statewide.

ELIGIBLE APPLICANTS

Any film production company with an expected in-state expenditure budget of at least \$100,000 for films over 30 minutes in length, and at least \$50,000 for films under 30 minutes in length.

ELIGIBILITY CRITERIA

A film production company claiming the credit must first apply to the Department of Economic Development. A particular film will be eligible to receive the tax credit based on the amount of funds still withstanding for that particular year. Prior to the approval, the department will also look at the economic impact in determining whether the particular project would be a good fit for the tax credit.

PROGRAM BENEFITS/ELIGIBLE USES

This tax credit can be applied to:

- Ch. 143 – Income tax, excluding withholding tax
- Ch. 148 –
 - Bank Tax
 - Insurance Premium Tax
 - Other Financial Institution Tax

This credit's special attributes:

- Carry forward 5 years
- Sellable or transferable

Only those Missouri expenditures necessary for the production of the film are eligible. Such expenditures may include, but are not limited to, the costs of labor (Missouri residents only), services, materials, equipment rental, lodging, food, location fees and property rental.

FUNDING LIMITS

The entire film production tax credit program is capped at \$4.5 million.

APPLICATION/APPROVAL PROCEDURE

Due to a finite amount of tax credits available, DED has established a procedure whereby tax credits may be set aside for a given film project by the submission of an application that provides estimates for the company's Missouri expenditures on the project. Based upon these estimates and any other relevant information, DED may reserve a given amount of tax credits for the project (for a given period of time). If it appears at any time that a project may be significantly delayed, then DED may review the project and, if warranted, reclaim those reserved credits and apply them elsewhere.

In the application form, DED will ask for estimates on the amount of money to be spent in Missouri, as well as projected dates for establishing the production office and the first day of principal photography. These dates will be used in determining the length of time for which tax credits may be reserved for the project, as well as the likelihood that the project will actually be produced in Missouri.

REPORTING REQUIREMENTS

Certain tax credit recipients are required to annually report to the DED information pertaining to the project that received the tax credits. The statute requires that a full year pass after the issuance of the tax credits before SB1099 reporting requirements must be met. The "Tax Credit Accountability Act" reporting form must be submitted to DED by June 30 each year for three years following the year of the first issuance of tax credits, including the following information:

- Category of business by size
- Address of the business headquarters
- Addresses of all offices located within this state
- Number of employees at the time of the annual update
- Updated estimate of the number of employees projected to increase as a result of the completion of the project
- The estimated or actual project cost

NEW MARKETS TAX CREDIT PROGRAM

PURPOSE

Provide supplemental funding for investment entities that have been approved for the Federal New Markets Tax Credit (NMTC) program in order to direct more funding to Missouri projects. The NMTC program provides state and federal tax credits to investors that make investments into approved funds, which will make investments in eligible projects located in low income census tracts in Missouri.

This program does not provide tax credits directly to businesses. Eligible businesses interested in obtaining funding should contact the approved "Community Development Entities" that are listed on the website below.

AUTHORIZATION

Section 135.680, RSMo, enacted in 2007.

ELIGIBLE AREAS

Low-income communities (LIC) are census tracts that have a poverty rate of 20% or more, or the median income is below 80% of the greater than (a) statewide median income; or (b) metropolitan median income.

ELIGIBLE APPLICANTS

Community Development Entities (CDEs) which have been allocated federal New Markets Tax Credits for Missouri. The state New Markets Tax Credits are provided to investors, which invest in the funds established by a CDE for projects in Missouri.

ELIGIBILITY CRITERIA

A CDE may make an investment (loan or equity) into a **Qualified Active Low-Income Community Business (QALICB)**, which is any corporation (including a nonprofit corporation) or partnership which meets the following criteria for any taxable year:

- At least 50 percent of total gross income of the QALICB is derived within any Low-Income Community.
- A substantial portion of the use of the tangible property of the QALICB (whether owned or leased) is within any Low-Income Community.
- A substantial portion of the services performed of the QALICB by its employees are performed in any Low-Income Community.
- Less than 5 percent of the average of the aggregate unadjusted bases of the property of the QALICB is attributable to collectibles, other than collectibles that are held primarily for sale to customers in the ordinary course of such business; and
- Less than 5 percent of the average of the aggregate

unadjusted bases of the property of the QALICB is attributed to nonqualified financial property.

Any business that derives or projects to derive 15 percent or more of its annual revenue from the rental or sale of real estate shall not be considered to be a QALICB.

PROGRAM BENEFITS/ELIGIBLE USES

The tax credit amount shall be equal to the applicable percentage of the adjusted purchase price paid to the issuer of such qualified investment:

- 0% for each of the first 2 credit allowance dates;
- 7% for the third credit allowance date;
- 8% for the next four credit allowance dates

FUNDING LIMITS

The amount of tax credit claimed shall not exceed the amount of the taxpayer's state tax liability for the tax year for which the tax credit is claimed.

The maximum state tax credit in any fiscal year for all CDEs is \$25 million. There is no limit per CDE, and state tax credits are allocated on a first come basis.

APPLICATION/APPROVAL PROCEDURE

CDEs that have been certified by the Federal NMTC program are eligible to apply for the state NMTC program. The state application will be a two-part process:

- The CDE submits an application to the Department of Economic Development (which is available on the website below).
- Once eligibility is determined, DED will send a preliminary approval letter to the applicant CDE, which will include an allocated amount of NMTC contingent upon qualified investments being made within 30 days of the date of the preliminary approval letter.
- If an approved CDE is not successful in gaining proof of the investment, the CDE will be required to reapply and will be required to obtain a commitment that secures the investment in the amount of the application to accompany the new submittal.

REPORTING REQUIREMENTS

Twelve months from the date of the official allocation letter, the Applicant CDE must notify DED where the QEI was invested, provide adjusted purchase price, Senator and Representative information on where investment was made, and how much of a tax credit will be available for the taxpayer.

SPECIAL PROGRAM REQUIREMENTS

- The tax credit is not refundable or transferable. Any amount of credit that cannot be used in the taxable year may be carried forward to any of the taxpayer's five subsequent taxable years.
- Tax credits earned by a partnership, limited liability company, S-corporation, or other "pass through" entity may be allocated to the partners, members or shareholders of such entity for their direct use in accordance with the provisions of any agreement among such partners, members, or shareholders.
- Qualified investments shall not be made following fiscal year 2010, unless the program is reauthorized by the general assembly.
- Pursuant to (Section 620.1900, RSMo) a fee in an amount up to 2.5% of the tax credit amount applies to the Missouri New Markets Tax Credit Program.
